

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Ladies and gentlemen

Good morning

Let's me introduce myself

I'm Ammar Zakaria

A messenger of land of peace

Let's hear together a short story of land of peace

The story begins from the ancient history when the civil was created and the first alphabet was established in the land of peace , where the people of peace used to live and love the bronze and purple.

Where was God decided to start the first religious message to all the world.

If you see that land you should focus on Damascus , Aleppo and Latakia to let's the history tell us the story of humanity civilization.

If you deal with people of that land , you'll find the kindness and sadness,

Kindness : cause they used to love humanity and used to be hospitable.

Sadness : cause nobody let's them to live in peace during the centuries .

The Syrian people now are passing the most difficult test of humanity , they are struggling to keep their inthertage behavior of goodness and peaceful relations , in spite of pressure .

Pressure : cause they are dying in front of the world and nobody will do anything to rescue Syrian people.

They are died everyday by shelling , sniping , arresting , torturing and finally by starving.

So

They are screaming in all of the world , begging the **consciencs** , to keep their humanity alive , cause they know (and everybody know) that the **pressure** produce the **Violence** , and the Violence creates **Extremism** .

Abschliessend moechte ich dem Lew-Kopelew-Forum, fuer das Erreichen der Stimme des syrischen Volkes bedanken.

Viele Grüße

Das syrische Volk
